

Line - length, antigravity, dematerialization. Line space is infinite, it contains aspiration sign of movement, followed by the change in intensity, rhythm, alternations and transformations. Line excited and explores space. The essence of the project is to add mobile line to the TOyen park.

"The only people for me are the mad ones, the ones who are mad to live, mad to talk, mad to be saved, desirous of everything at the same time, the ones that never yawn or say a commonplace thing, but burn, burn, burn like fabulous roman candles exploding like spiders across the stars and in the middle you see the blue centerlight pop and evrybody goes "Awww"!"

Jack Kerouac

When we designed the meeting point and festival icon at the OYA festival in Oslo, our goal was to make environmentally appropriate and unexpected space for people. The essence of the project is to create mobile line which cross the park. It's a mobile capsule for visitors. Our project is questioning How Can You Be Everywhere at the Same Time and get everything at the same time. For People who are mad to live, mad to talk, mad to amuse at the OYA music festival we create mobile line in the sky. We decided not to change original shape of Toyan park, just add new level, which unifies different parts of the park. We create a character for this place, like as Desert scene, Green scene and Labyrinth food courts. The Oya festival is one of the leading music festivals in Europe. This year we want to give voice to visitors how important is to use windmills and solar energy for environmental attitudes.

meeting points, new people, new relationships
FOOD COURTS

our conception is to distribute tables like a labyrinth, because it's a game of unexpected space, where you never know who will be sitting next to you

LIFE IS A GAME AND YOU MAKE THE RULES

stylized trees

stylized trees is a part of park, it's for solar energy. with this trees we create the scene for music festival, valley, and food courts. These trees generate energy all day long and bring the sun all day long and create the scene for music festival, valley, and food courts.

WINDMILL

we made a "wind catch" to bring the breeze

it's part of mobile capsule. this machine converts the energy of wind into rotational energy by means of vanes

FOR THESE ONES THAT NEVER BEHAVE AND GO AT A COMPLIANCE THINGS

i want it all and i want it now

I COULDN'T TELL WHERE HEAVEN STOPPED AND THE EARTH BEGAN

DESERT SCENE

THE DESERT, WHEN THE SUN COMES UP...

THIS IS MY DESERT

our goal is to create character for Toyen park

MOBILE TIME IN TOYEN PARK

RISE SOCIAL CONSCIOUSNESS ON ALTERNATIVE APPROACHES TO ENVIRONMENTAL CHALLENGES

THE OYA FESTIVAL 2014

New conception. unexpected park
