

ADD MULTIFUNCTIONAL FLEXIBLE SPACE TO THE SCHOOL LIFE!
IT IS NOT JUST A CANTEEN AND A LIBRARY IN A TRADITIONAL
SENSE, BUT A MODULAR SYSTEM, ALLOWING CHILDREN TO SPEND
TIME IN AN INTERESTING WAY.

THE CONCEPT ALLOWS ALL CHILDREN TO TAKE MEALS AND
KNOWLEDGE SIMULTANEOUSLY IN A SINGLE VISUAL FIELD. ALL
NECESSARY BOOKS ARE KEPT IN A CONVENIENT STORAGE
SYSTEM – THE STATIC STATE PRESUPPOSES SHELF STANDS AND
BOOKS "IN MOTION" – SHELVES IN THE FLOOR AND WALLS.

S O C I A L T R A P

THE SYMBIOSIS OF A CANTEEN AND A LIBRARY IS ENSURED DUE
TO OVERFLOW OF ONE SPACE INTO OTHER. THE RED PLATFORM
IS CREATED IN TWO FLOORS AND ONLY FOR TAKING MEALS.
COMING TO TAKE A MEAL, CHILDREN PLUNGE INTO THE WORLD
OF READING AND IMAGINATION. THE SPACE IS CUT WITH
VERTICAL AND HORIZONTAL COLUMNS, WHICH ENSURES A RIGID
S T R U C T U R E .

THE BASIC MATERIAL IS CONCRETE AND WOOD. THERE ARE 2
MAIN LEVELS OF INTERACTION BETWEEN CHILDREN AND
OPERATIONAL "LIVE" ROOFING.
