

# Place of 200 dreams

Located on the corner of the school campus, the library will not only have a visual connection with the community, but also provide both educational and joyful space for the surrounding town

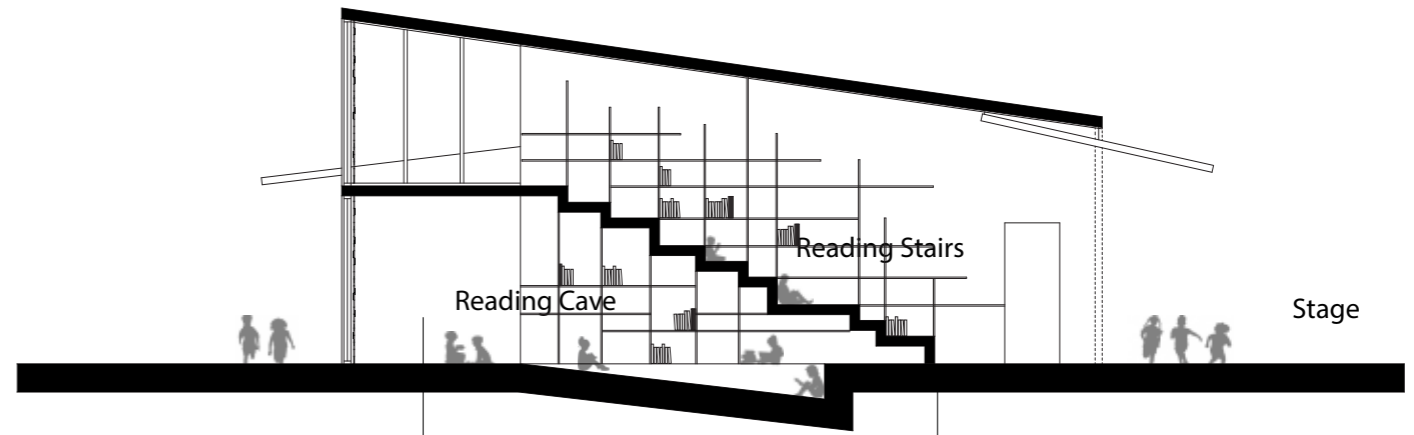

The library of 200 dreams aims at building an interactive space for both kids and community and completing the project with the kids drawing and crafts as a part of the library, so that the kids will memory their dreams and look back at them when they visit the school as an adult.
