

Let them fill the blank

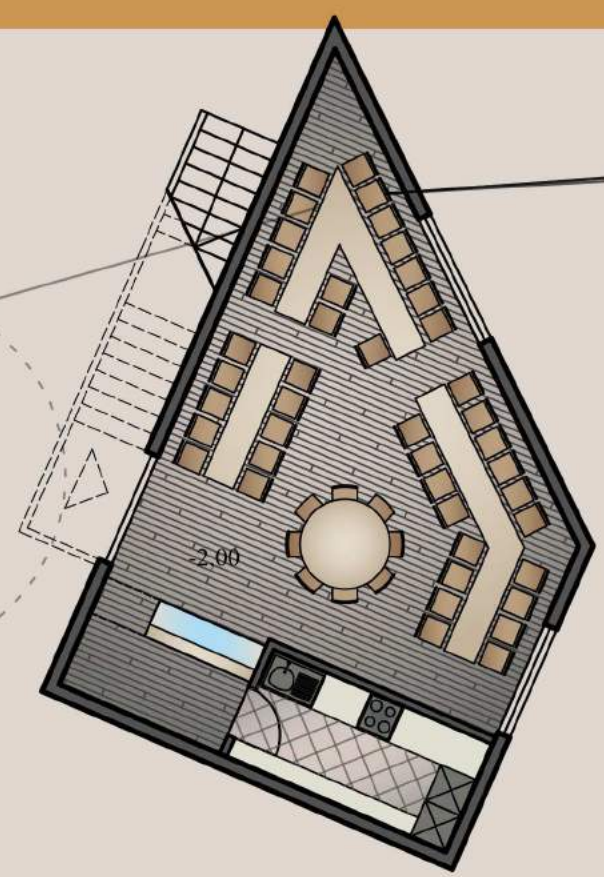

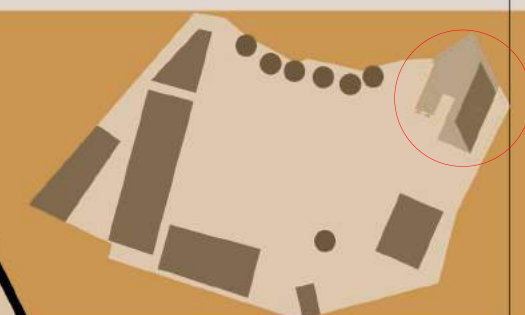

教育，一个至关重要的进程，贯穿整个生命周期

两座建筑物的共生...一座分开的房子，一条直线一边通向知识空白的补充，另一边填补胃的空洞

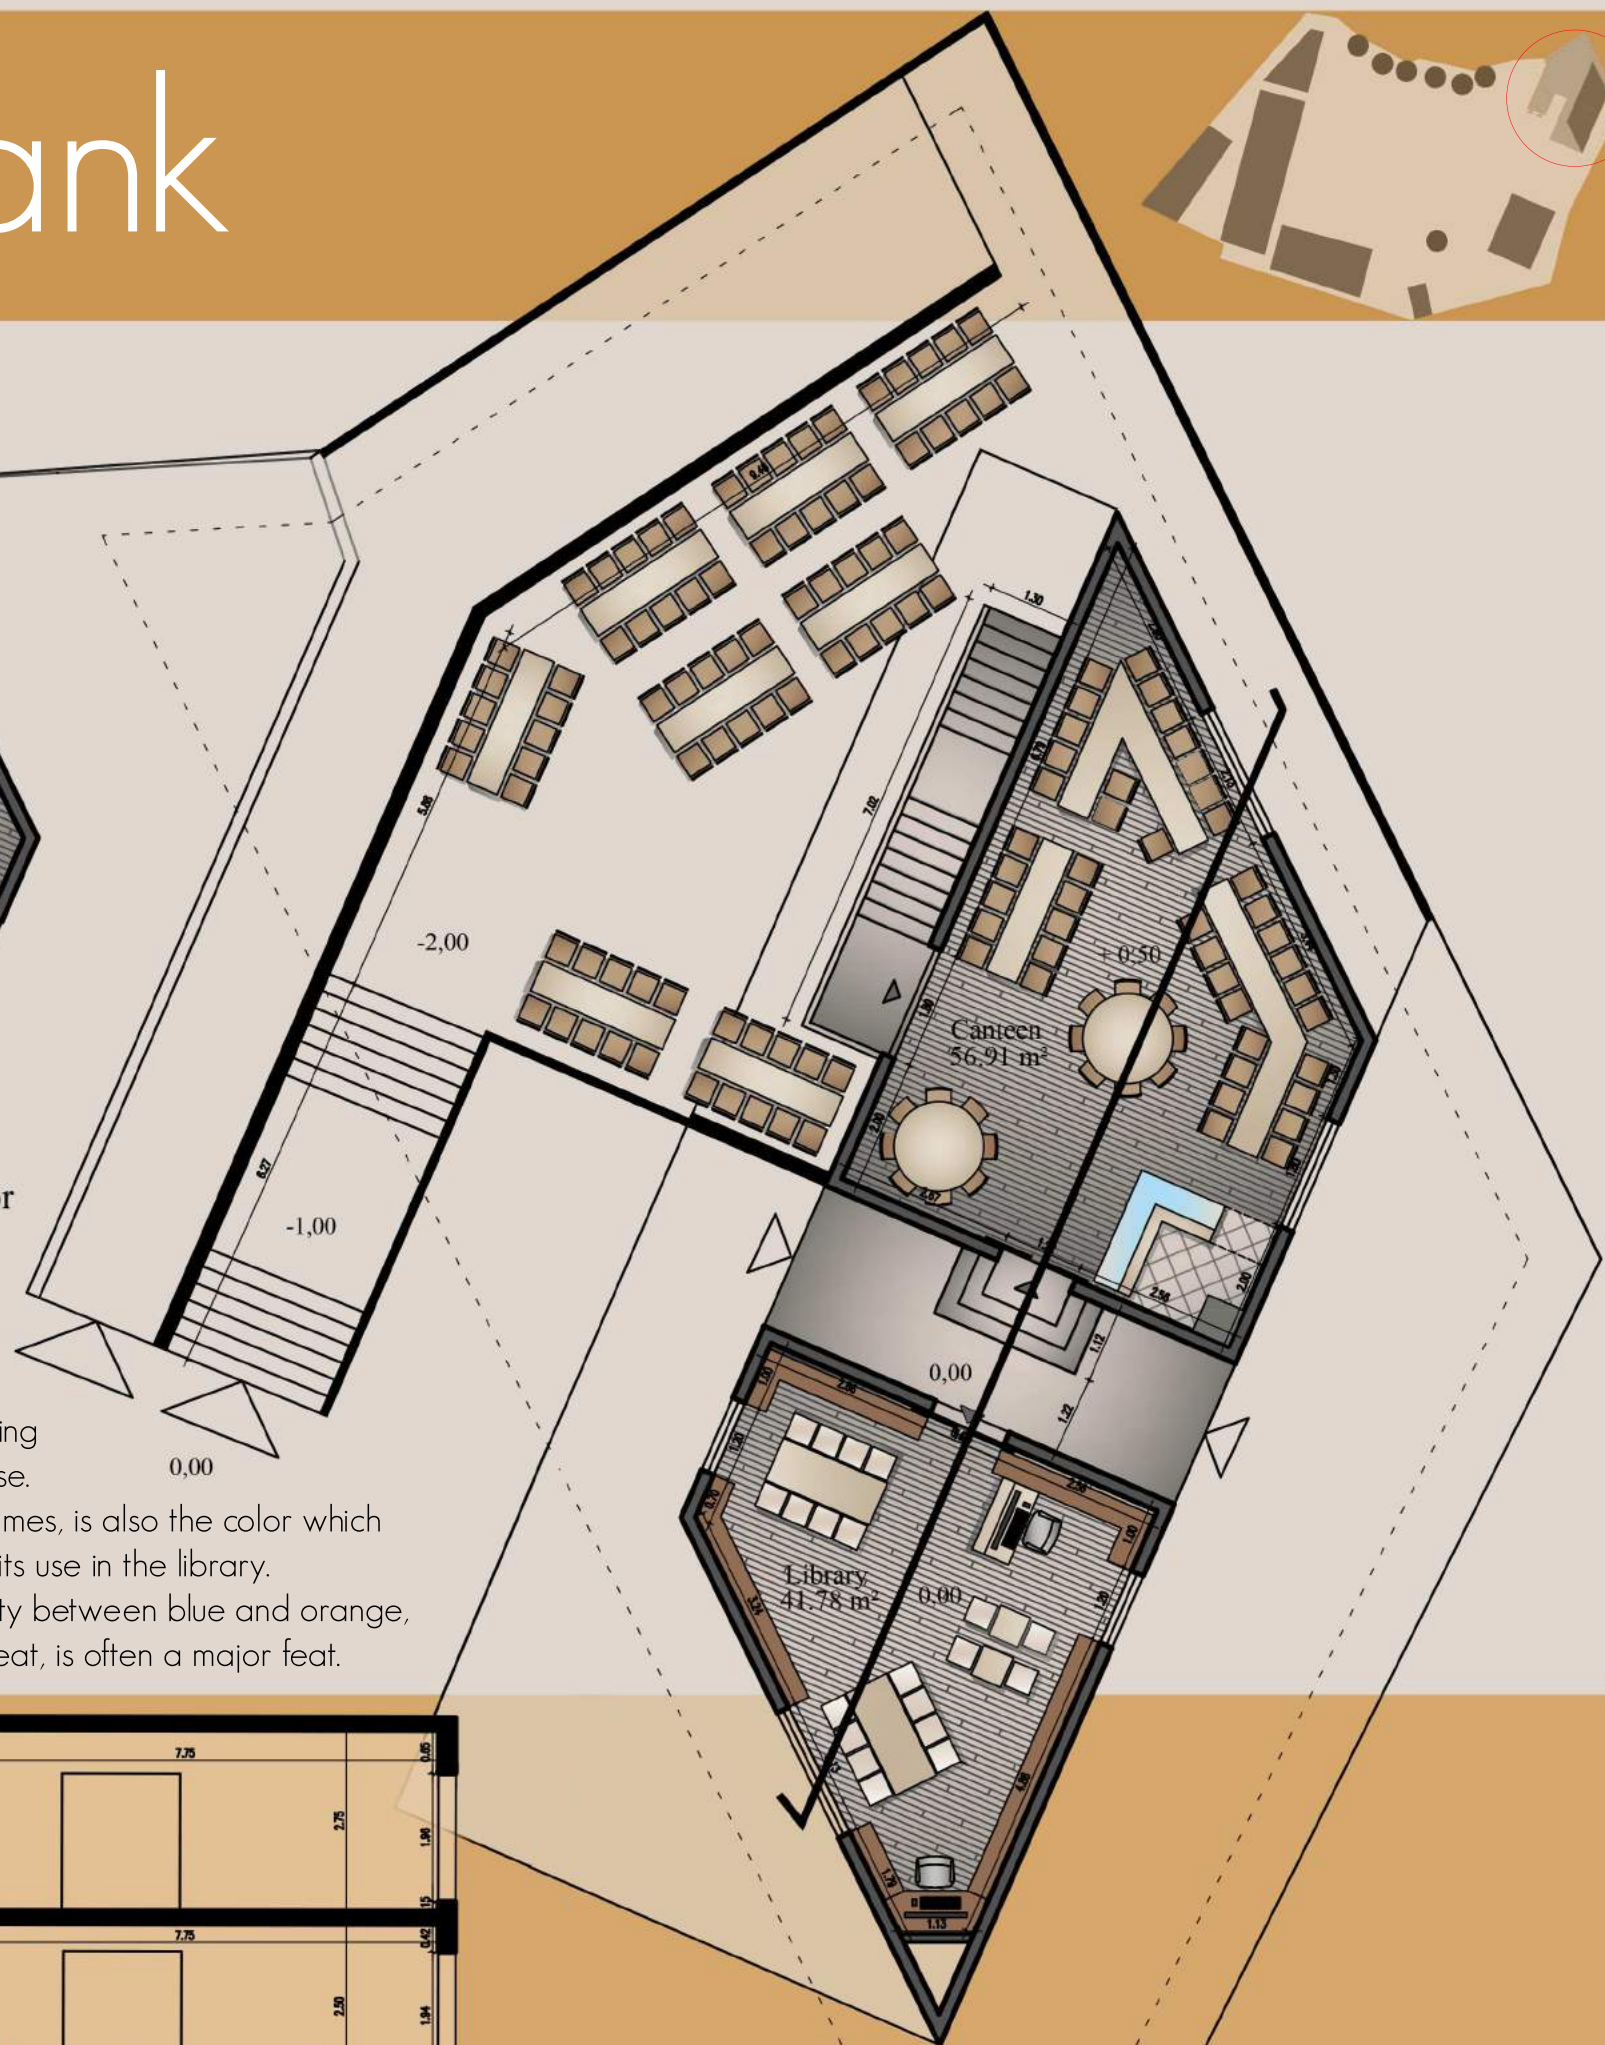

蓝色，布依传统服装中的主色，也因其象征着和平，关乎于智慧，用于图书馆的基调

那共生呢？除了橙蓝之间的互补，橙色刺激食欲并促进孩子吃饭，也是一项壮举

Education, a process of an utmost importance, is assembled throughout the entire life. The symbiosis between the two proposed buildings ... a straight line towards filling the blank in knowledge and filling "the hole" in the stomach, under the form of a divided house. Blue, the predominantly used color in Buyi traditional costumes, is also the color which suggests peace and is associated with intelligence, hence its use in the library. But what about the symbiosis? Beyond the complementarity between blue and orange, orange stimulates the appetite, and convincing children to eat, is often a major feat.
