PLAN

SOLVE THE PROBLEM USING THE SAME THING WHICH CREATED IT (CONDUCTORS).

IN TODAYS WORLD GETTING AWAY FROM YOUR DIGITAL , SOCIAL NETWORKING LIFE IS A STRUGGLE. THIS BUILDING TYPOLOGY IS SUCH THAT IT HELP US STAY AWAY FROM THE GRID . THE BUILT FORM IS MADE USING MATERIALS THAT WILL BLOCK THE SIGNAL THERE BY COMPELLING THE PEOPLE INSIDE TO SWITCH TO PHYSICAL COMMUNICATION . THE BLUE PORTION SHOWN IN THE THREE DIAGRAMS IS SALT WATER WHICH WILL CREATE A WALL . (Salt water prohibits radio waves from traveling because salt contains ions).WATER WILL FLOW ON THE TIN WALL INSIDE . THE PINK PORTION IS DOUBLE INSULATED GLASS. THE ROOF IS MADE OF CONDUCTIVE MATERIALS WHICH WILL BLOCK THE SIGNALS.

THE SPACE INSIDE CAN BE USED AS ANY INTERACTIVE SPACE . IT CAN BE CONVERTED INTO A RESTAURANT , MUSEUM , SHOPPING COMPLEX ETC.
