

Fun Room

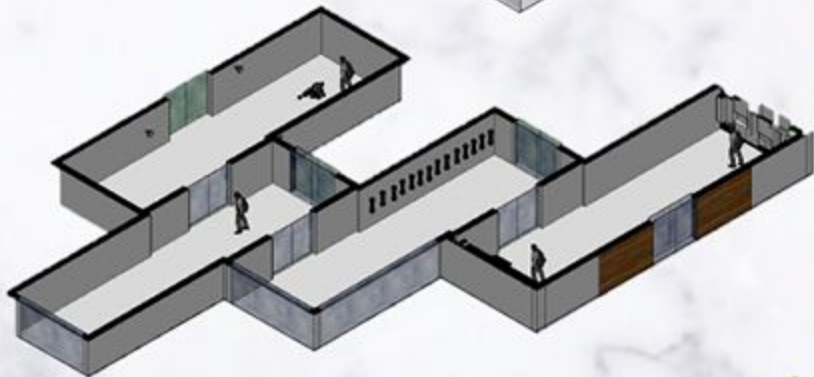

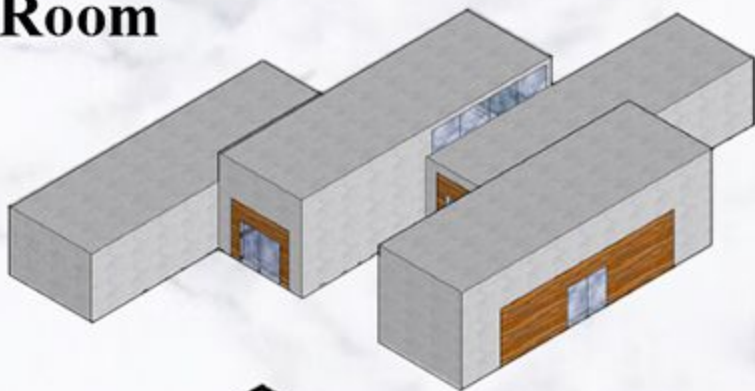

Humans tend to interact with each other by many different ways such as Playing. Therefore, our communication room was designed to make people communicate by playing games that requires different skills. Which is represented as different rooms or levels. Moreover, our room can be placed in all gardens around the world.

1- Laser room. In this room you must hit the target using the lasers reflection on all of the mirrors.

2- Map room. In this game you must target a certain country on the map. However, this game is played as a two-man team the first player as a guide and the second will be the one that hits the target while being blindfolded.

3-Ropey room. In the third level or room the players must catch an object which is hanging from the ceiling by the use of ropes.

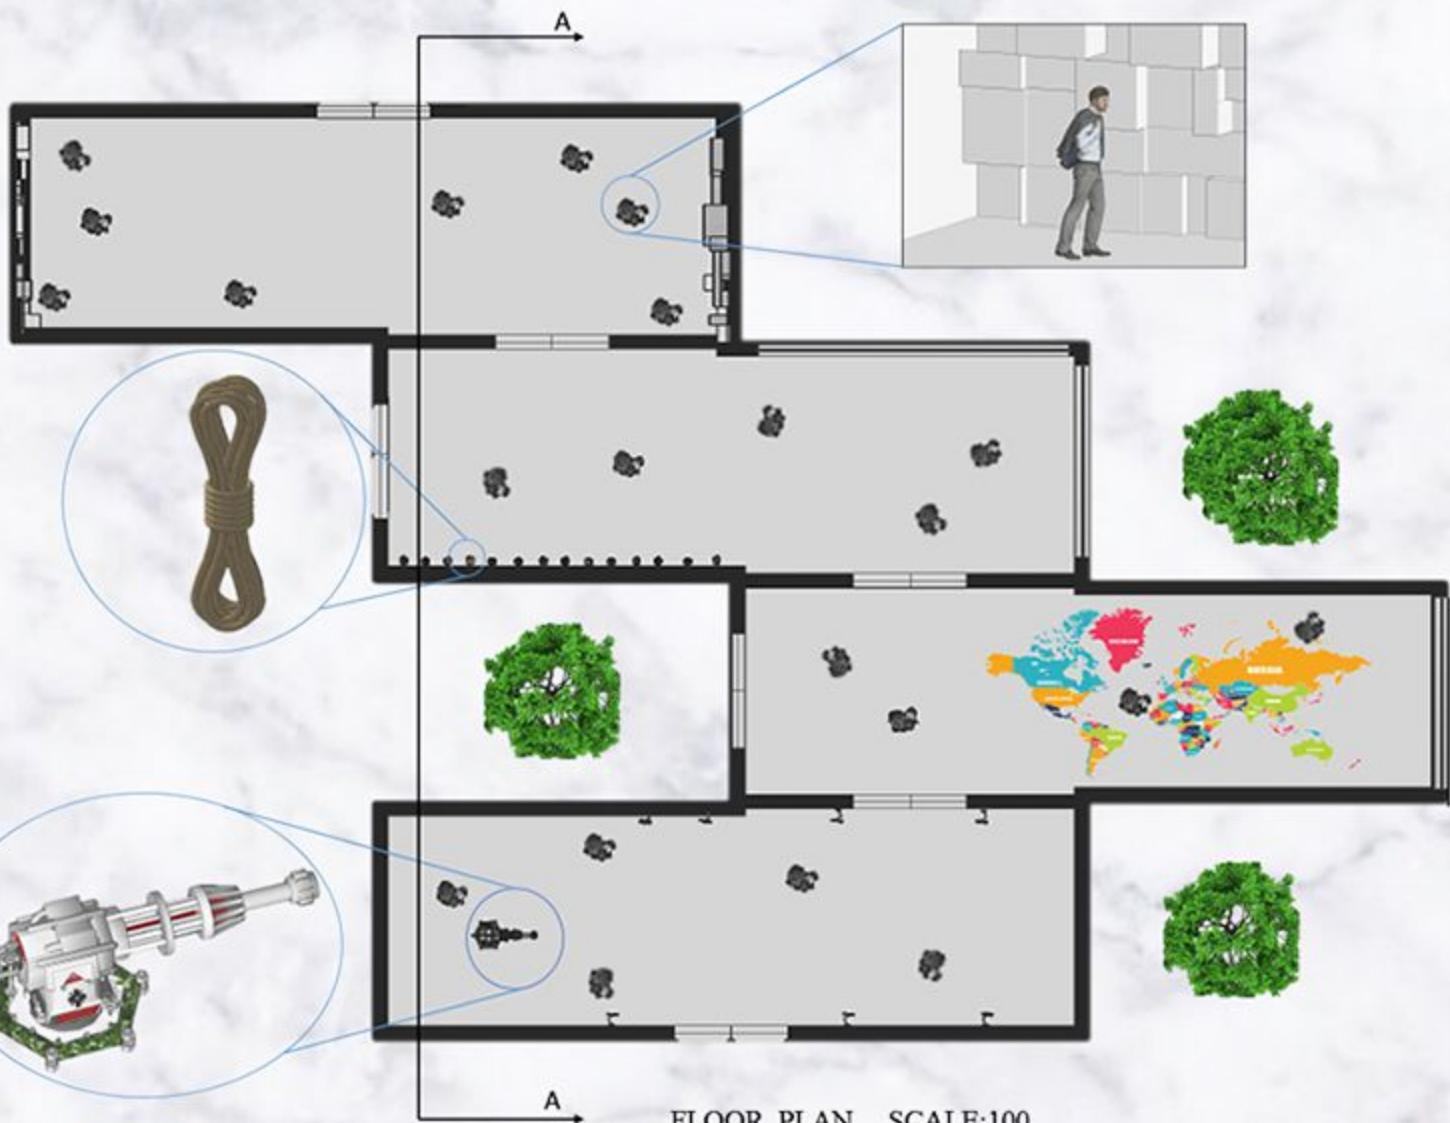

4- Game of blocks. The aim of the game is to push a number of blocks that is been projected out of the wall, in a specific order and in an amount of time that can be achieved through communication and team-working.
