

FLEX' CIRCLE

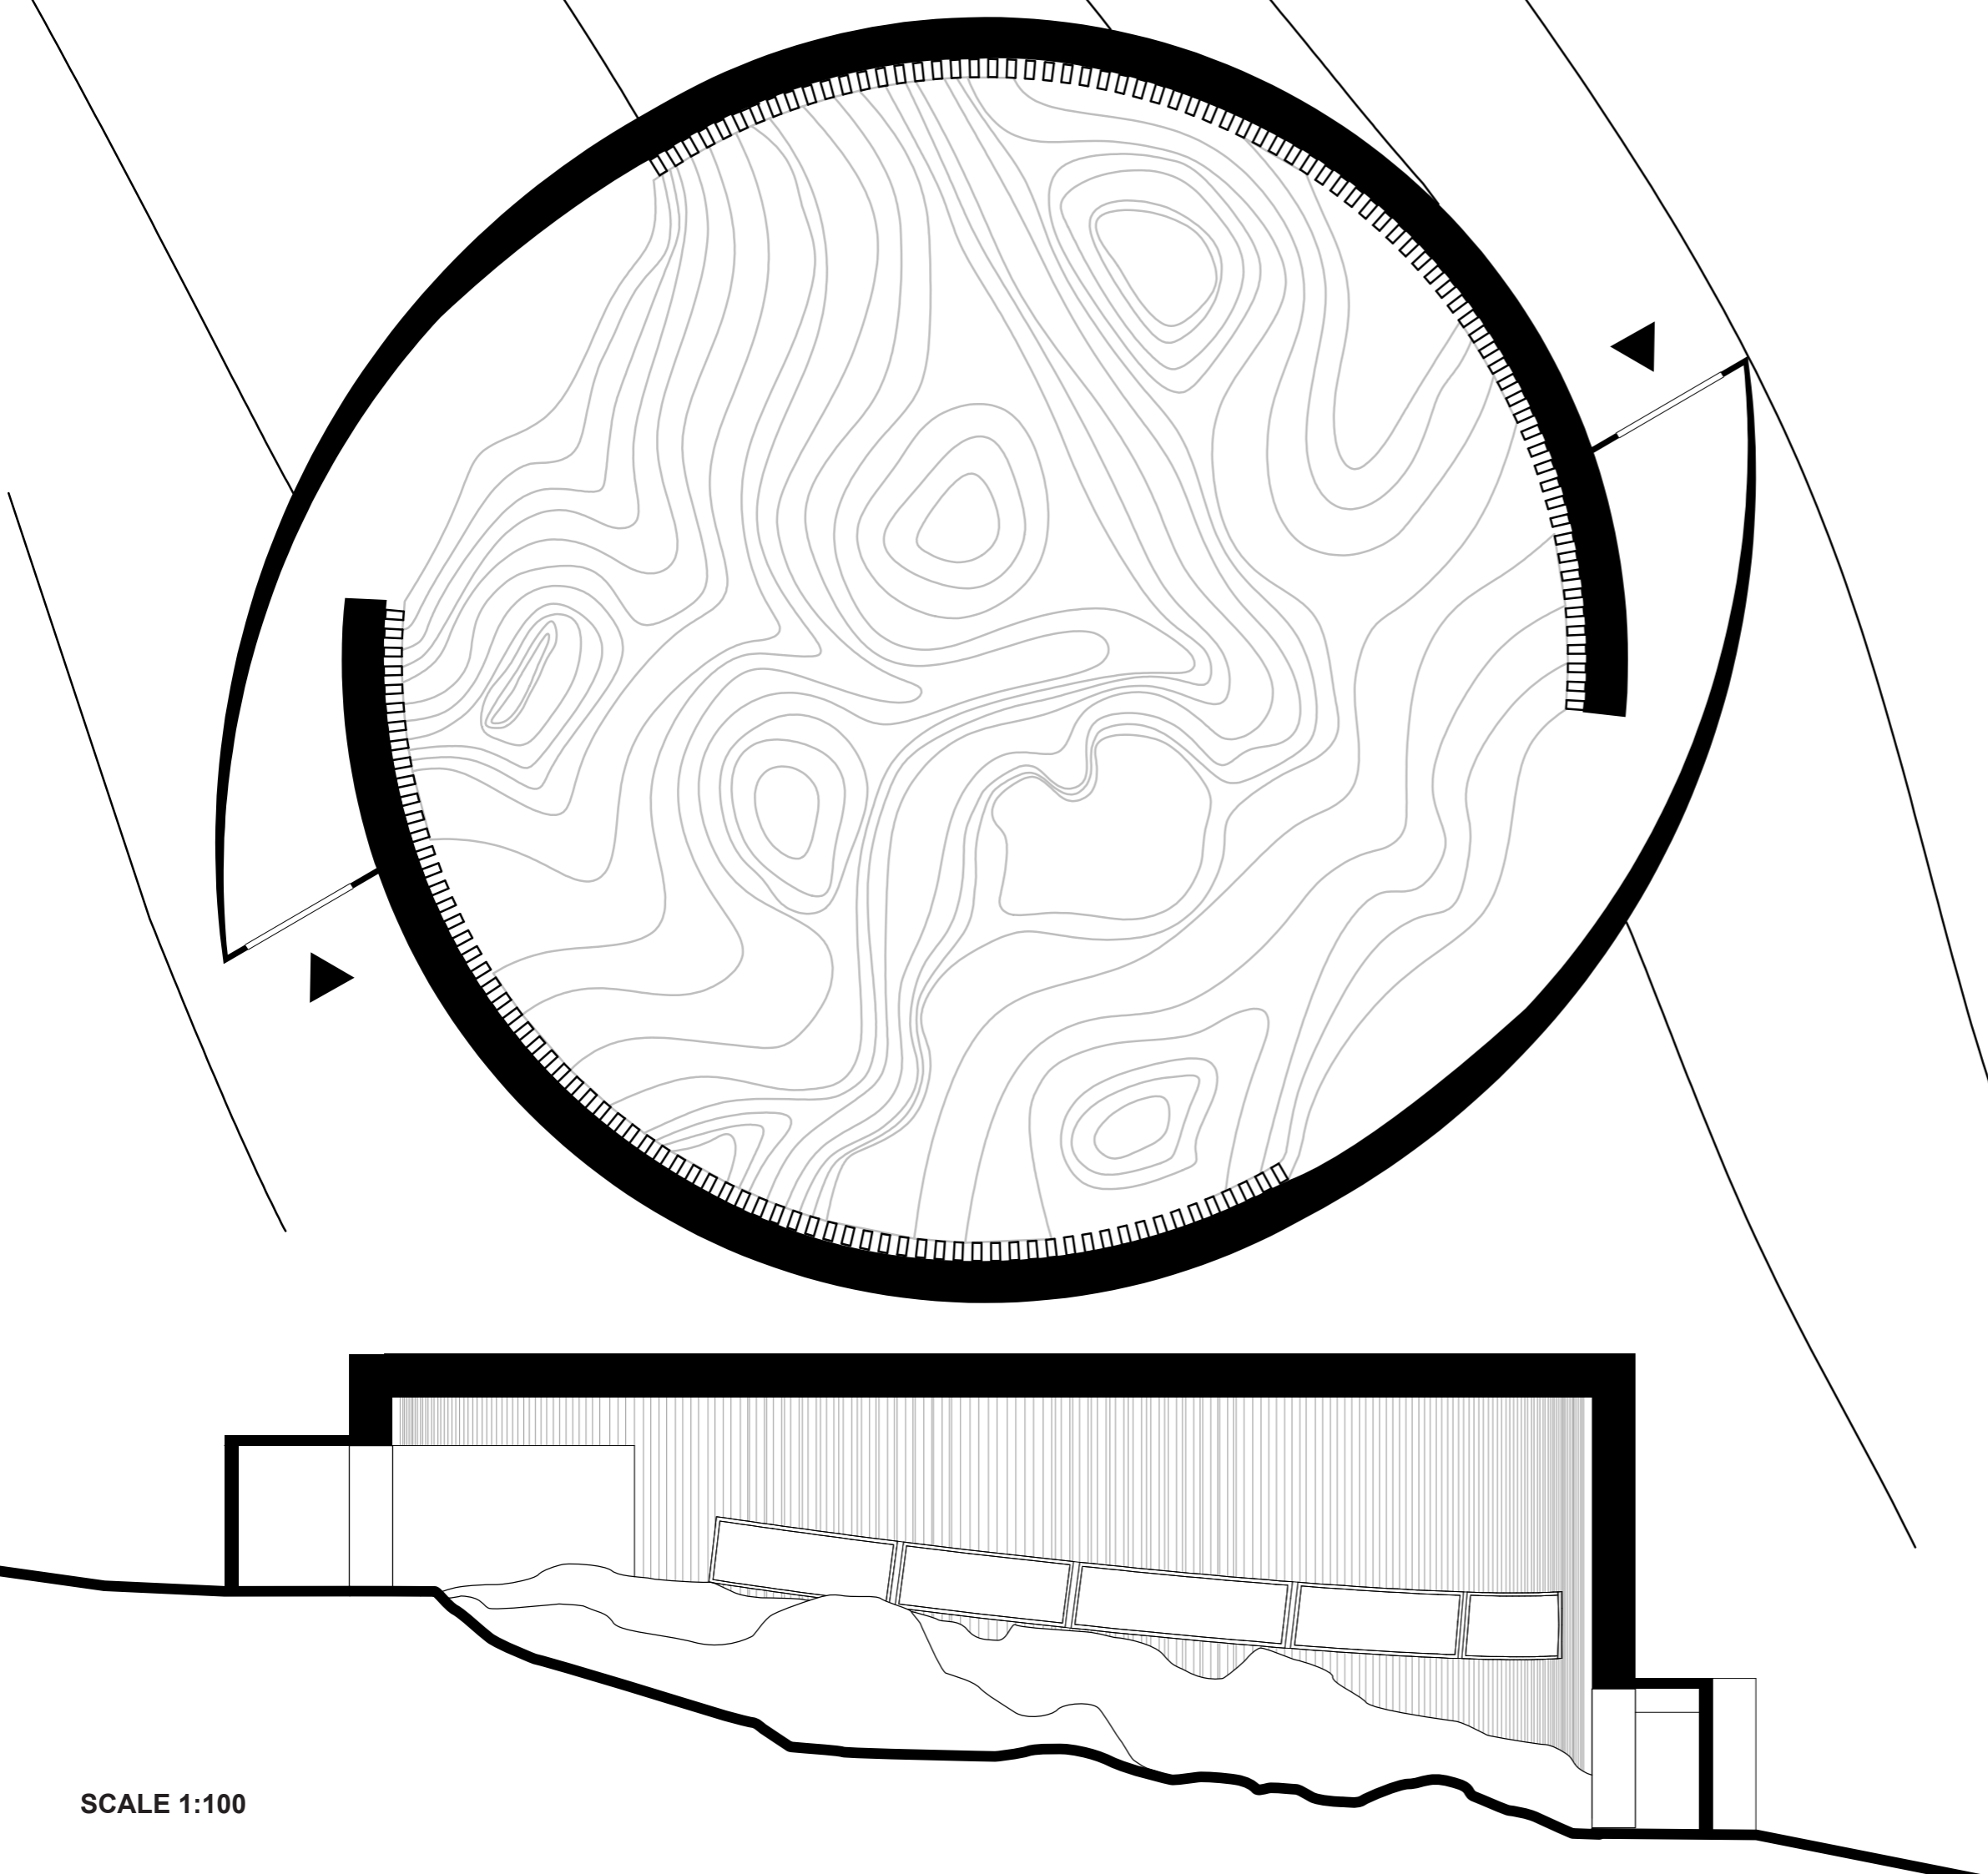

SIT IN SMALL GROUPS

GATHER FOR MEETINGS AND DEBATES

COMMUNICATE WITH YOUR BODY - DANCE !

Flex' Circle is a room without function. That's why it is perfect for communication : a space where people have nothing else to do than interact with each other because they are in the same room.

With a wall thickness of 70 centimeters, Flex' Circle begins with complicating the signal emission for digital communication. The wooden stripes on the walls allow a good acoustic treatment. Its circular shape deletes the possibility to be left alone in a corner so that people have no choice but to enjoy being together. Its floor, a wavy slope, divides the space into zones without physical partition. The windows, located close to the floor level, encourage people to bend down to have a look, and eventually sit after. Every architectural choice was made so that nothing needs to be added to use the room.

Flex' Circle is an ideal room where different types of communication in many contexts are possible through its spacial flexibility. From making small talk with one person, to debating important subjects in a bigger group or even use your body as a medium to communicate your good mood, everything is an option, let's just TALK about it !
