

BETRAYL

Interaction is a way to communicate, and communication can only be achieved by introspecting your self by attaining peace. People in this society are suffering from fake siblings around them, they try to find out new people from different societies through social media.

Space is needed for achieving peace in first place, either they enjoy by eating delicious food or by sleeping, like most of the teenagers have in common.

We have provided a space where people of different societies are being welcome to SLEEP. Yes, we want them sleep in this room provided for communication.

SPACE IS NEEDED FOR INTROSPECT

TEAM 8402

Dense Trees

if they are happy with the selected partners then they can leave recliners and enter into the space full of dense trees

Same Colors

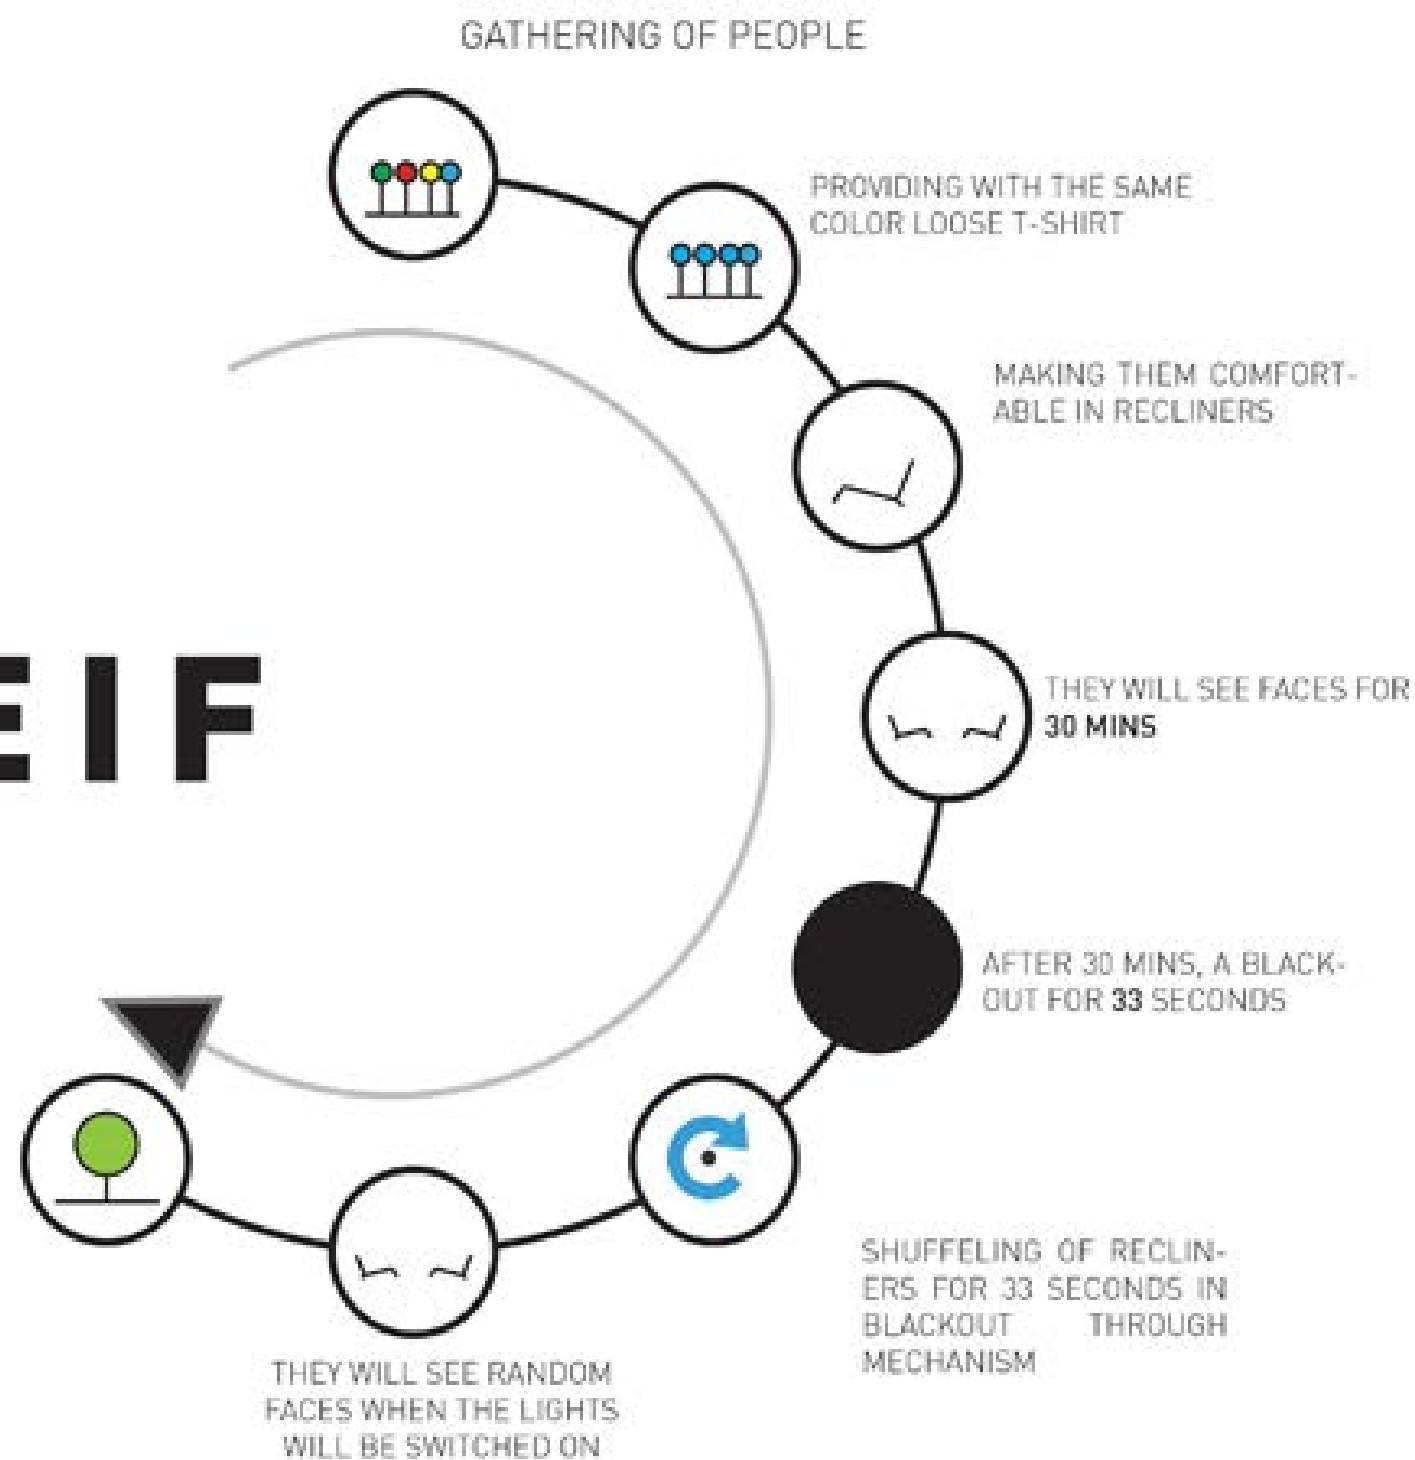

Make them wear same upper of same color, to generate equality among people

CYCLE OF RELEIF

THEREFORE THE INTERESTED PEOPLE WILL WALK OUT OF THE ROOM AND WILL PASS FROM THE DENSE TREES AREA

85 m
PLAN

WHAT DOES THE PSYCHOLOGY SAYS?

Inviting them for free sleep and relaxing, will attain peace within self

30 mins interaction will make them feel more confident because for less time, people interact with random face

People will be excited much to see random people, for example sites like facebook, intagram, snapchat, omegle, tinder etc.

Blackout will generate sense of suspense in them, that what new face they will see after 30 seconds of shuffling

Providing common color removes racism, they will feel more comfortable seeing people of same color.

People will be excited much to see random people, for example sites like facebook, intagram, snapchat, omegle, tinder etc.
